Vi hjemtager nu flere og flere slags farver fra den berømte Europæiske leverandør af mærket LUKAS. Vincent van Gogh var stor tilhænger af datidens LUKAS produkter fra Schoenfeld. Her følger udtalelser fra Vincent selv i det engelske sprog:

"I sent for paint from Schoenfeld in Düsseldorf, a few colours that I can't easily get here. The fact that the colour isn't right in the painting of the potato eaters is at least in part the fault of the paint. I was reminded of it because I was painting a large still life in which I was looking for similar tones and, not satisfied with it because I was getting the same thing as then in it again - redid it. And going by that experience, I would have got it much better with mineral blue, which I have now, than with that I had until now."
